

SURAJ RAWAT

Haldwani, India

+91 9675219087

✉ rawatsuraj80627@gmail.com — [in LinkedIn](#) — [GitHub](#) — [LeetCode](#)

Summary

Full-Stack Developer experienced in building **scalable web applications**, **RESTful APIs**, and **cloud-deployed systems**. Proficient in **JavaScript**, **TypeScript**, **React.js**, **Node.js**, **Express.js**, **MongoDB**, with hands-on knowledge of **API design**, **caching strategies**, **authentication**, and **performance optimization**. Strong foundation in **data structures**, **algorithms**, **system design**, and **problem-solving**, delivering reliable applications for **500+ users**.

Skills

Languages: JavaScript, TypeScript, C++, Java, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit

Backend: Node.js, Express.js, REST API Development, Authentication, Middleware, API Security

Databases: MongoDB, MySQL, PostgreSQL, Query Optimization, Indexing

Tools: Git, GitHub, Docker, AWS (EC2, S3), Postman, Vercel, CI/CD (GitHub Actions)

Concepts: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design, Caching, Scalability, Debugging

Education

Graphic Era Hill University, Haldwani

2024 – 2027

Bachelor of Computer Applications (BCA), CGPA: 7.5/10

Experience

Full-Stack Developer (Projects & Hackathons)

Jan 2024 – Present

- Engineered **scalable MERN applications** supporting **500+ users**, improving load time by **30%** using lazy loading and frontend optimization techniques
- Designed and implemented **RESTful APIs**, reducing response time by **20%** through indexing, caching, and efficient database queries
- Developed **secure authentication systems** using JWT and role-based access control, ensuring application security
- Integrated **CI/CD pipelines** and version control workflows for efficient deployment and collaboration
- Collaborated in **agile team environments**, delivering full-stack solutions within **24–48 hour hackathon cycles**
- Performed **debugging, testing, and performance tuning** to improve system reliability and reduce failures

Projects

[Online Code Runner System](#)

React, Node.js, MongoDB

Built a **multi-language execution platform** handling **200+ concurrent requests**, improving execution speed by **35%**. Implemented secure sandboxing, backend optimization, and efficient request handling.

[Resume Builder Platform](#)

React, TypeScript

Developed a **dynamic resume generation tool** supporting **1000+ users**, improving UI responsiveness by **40%**. Focused on reusable components and optimized state management.

[SmartRoute – Delivery Optimization System](#)

React, Node.js

Created a **route optimization system** using graph algorithms, improving delivery efficiency by **25%**. Implemented real-time processing and backend API integration.

Achievements

- Participate in 4+ national-level hackathons, including **Pan-IIT AI/ML Hackathon (IIT Guwahati)**
- Solved **250+ DSA problems** on LeetCode, strengthening algorithmic thinking and coding efficiency
- Demonstrated strong **problem-solving, communication, teamwork, and adaptability**
